CONGRESSIONAL.

S. J. Randall's Seat Filled by Vaux.

THE GERMAN CATHOLIC SOCIETY

Will Go into Politics to Carry Their Point.

The Chicago Gas Trust Held Down by the Courts.

Congressional Proceedings.
By Associated Press.]

WASHINGTON, May 28. — In the House to-day Vaux qualified as Randall's successor.

A bill passed appropriating $125,000 for the establishment of a National Military Park at the battlefield of Chickamagua.

A conference was ordered on the appropriation bill.

The House went into Committee of the Whole on the river and harbor bill.

SENATE.

Sherman, from the Committee on Foreign Affairs, reported an amendment to the consular and diplomatic appropriation bill authorizing the President to carry into effect the recommendations of the International Conference by the appointment of three Commissioners to the present United States Intercolonial Railway Commission; also, to detail from the army and navy officers to serve as engineers under such Commission in making a survey; and appropriating $65,000 as the share of the United States in the expenses of such Commission and survey.

Stewart offered a resolution (agreed to) calling on the Secretary of Agriculture for information as to the use of artesian wells and other water supplies from subterranean sources of irrigation.

The bill subjecting imported liquors to the laws of the several States was again taken up, and Morgan made an argument against its constitutionality.

Going Into Politics.
By Associated Press.]

MILWAUKEE, May 28.—The convention of the German Catholic Society this morning adopted additional resolutions, declaring it was the sense of the convention that the Bennett law infringes upon our consciences, and it would be a wrong to our children not to take an active part in opposing such measures.

Resolved, Hereafter, that the German Catholic Society take an active part in the coming State campaign, and will organize for that purpose.

A committee will be appointed to watch carefully that no friend of the paternal measure is elected to either branch of the Legislature.

A resolution was adopted, calling for the appointment of a committee to look closely after all bills that come before the Legislature and report promptly any measure that appears antagonistic to the Catholics.

A Baptist University Assured.
By Associated Press.]

CHICAGO, May 28.—At a meeting of the American Baptist Publication Society to-day much enthusiasm was evoked by the announcement that $400,000 had been raised to supplement the gift of $600,000 by J. D. Rockefeller of Cleveland, for a great Baptist University in this city.

The Trusts Worried.
By Associated Press.]

NEW YORK, May 28.—The decision in the Chicago gas case caused a heavy slump in all trusts. Chicago gas declined from 62½ to 55½, but later recovered to 59. Other trusts also recovered.

New Board of Directors.
By Associated Press.]

NEW YORK, May 28.—At the annual meeting of the Pacific Mail Steamship Company the following Board of Directors was elected: Collis P. Huntington, Henry Hart, Isaac E. Gates, Calvin S. Brice, Samuel Thomas, Oliver H. Payne, Edwin Lauterbach, Charles W. McGee and James B. Houston.

President George J. Gould, in his statement for the year ending April 30th, shows the net earnings were 2½ per cent., after deducting the extraordinary expenses of $250,000 for repairs on the steamers City of New York and City of Sidney. The business of the Atlantic and China line shows a falling off, which, however, is more than offset by gains on the Panama line and a reduction of expenses, so that the net earnings exceed those of last year by $15,000. Cash on hand, $235,000.

Gould says further: "Our relations with the Occidental and Oriental Steamship Company, owned by the Central and Union Pacific Railroads, have been somwhat strained. Under the present arrangements, joint agencies are maintained at Yokohoma and Hongkong. The figures of the past year show that the Occidental and Oriental boats carried nearly one-third more cargo than this company's ships, although your steamers did not all come fully loaded."

President Gould recommended that the trans-Pacific business be pooled, or, failing in this, that the Pacific establish separate agencies.

The total earnings were $4,065,000; expenses, $3,555,000; net earnings, $510,000; cash assets April 30th, $673,000; liabilities, $178,000.

At the meeting of the Board of Directors James B. Houston was elected President and Edward L. Lauterbach Vice-President. The other officers hold over till the next meeting.

A Gas Trust Held Level by the Courts.
By Associated Press.]

CHICAGO, May 28.—In the case of Charlton vs. The Chicago Gas Trust, Judge Collins this morning issued an injunction restraining the trust, or the companies composing it, from transferring any of their stock or assets to the Fidelity Trust Company of Philadelphia. He also decided to appoint a receiver for the trust, whom he will name to-morrow. A year or so ago Philadelphia, New York and Chicago capitalists obtained control of all gas companies of Chicago and formed a trust. The Supreme Court of the State declared the trust unconstitutional, whereupon the combination changed to the Chicago Gas Company, and the Fidelity Trust Company of Philadelphia was given control of the stock.

A FESTIVE DRUMMER'S

Experience In Snipe Hunting in White Pine County.

The White Pine *News* says: His name is Herrick. He was a representative of a wholesale liquor house in the booming city of Ogden, and as "fly" and "chip" a specimen of the genus drummer as ever put in an appearance in these parts. He could relate narratives by the hour, day or week of thrilling adventures by rail and stage. In a word, Herrick was a talker from away back, and the hero of many episodes. It was about 11 o'clock Wednesday night at the Capital Saloon, when a few of the "boys" asked the Ogden man if he ever went sniping. He didn't. They told him it was rare fun, and would add a rare chapter to his anecdote album. He was delighted to get such an opportunity, and said the Ely boys were just so good and accommodating to strangers. It was 1 o'clock in the morning when the boys left the Ogden man holding the sack at the bank of the creek in the tall sagebrush about a mile below town. When Mrs. Mezger opened the chicken coop door next morning to look after a setting hen, she was frightened almost out of her wits at finding a man lying there looking as if he had been dragged up the creek all night. Herrick remained with us a day or two to get over his rough experience at sniping by the winding banks of the Murray creek. But, alas! how changed. He was no longer the jovial, merry Herrick of the day before. A sad look was in his eye and his tongue wagged merrily no more. As he boarded the stage for Taylor, he waved back with his hand a sad au revoir. Speech failed to express his disgust at the supreme moment.

NEWS NOTES.

Barnum having declined to give the Brooklyn Alderman free passes to his show, those patriotic statesmen increased the license fee for circuses from $750 a year to $500 a day,

A gentleman who invested largely in lands near Norfolk, Va., twenty years ago has just sold valuable waterfront and other property there to an English syndicate for nearly $2,000,000.

There are some indications that the agricultural depression in the West is ended. Corn has gone up from 15 to 35 cents, oats from 10 to 30 and "dollar wheat" seems again to be a possibility.

Young Kimber Found in a Reservoir—His Throat Cut.

The Silver Corner.
By Associated Press.]

WASHINGTON, May 28.—The New York *Mail and Express* correspondent telegraphed his paper to-day that Director of the Mint Leach predicts a break in the New York silver corner on next Thursday. From evidences shown in Washington there appears to be great uneasiness on the part of the New York silver men to get rid of their present holdings before the break next Thursday. Since the publication of the silver corner was made some time ago the uneasiness has increased, and on last Thursday the Treasury surprised the silver holders by purchasing 200,000 ounces at one time. This had the effect of lowering the price from 107 asked to 103.

A Mystery Cleared Up.
By Associated Press.]

MONTREAL, May 28.—The Kimber mystery has been cleared up by the finding of the unfortunate young Englishman's body this morning in a large reservoir which supplies Montreal with water. His throat was cut and around his neck a towel was tied.

Kimber came to this country in February, and is known to have been in possession of considerable money. He suddenly disappeared and an investigation showed a razor covered with blood, a blood-stained floor, and other evidences of foul play were found in his room. The hotel keeper obliterated them and said nothing about them till a reporter unearthed the facts.

Suicide at St. Helena.
By Associated Press.]

ST. HELENA, Cal., May 27.—Last evening Jacob Ghrube, about 24 years old, in the employ of Beringer Bros., suicided by shooting himself in the mouth. Death must have been instantaneous, as upon the return of his room mate life was extinct. Ghrube came here from Germany five years ago, and has been in the employ of Beringer Bros. ever since. He was steady and industrious. It is understood by his friends that he was defrauded out of property rights in the old country, and it is thought that brooding over his trouble led to the rash act.

French Copper Syndicate.
By Cable and Associated Press.]

PARIS, May 28.—The trial of the Secretary and others connected with the recent copper syndicate was finished to-day. The Secretary was convicted and sentenced to six months' imprisonment and a fine of 10,000 francs. La Veissiere was sentenced to imprisonment for three months and to pay a fine of 6,000 francs. Hentsch was fined 600 francs. Joubert, Arbel, Loyer and the sons of La Veissiere and Hentsch were acquitted.

The Tennis Match.
By Cable and Associated Press.]

DUBLIN, May 28.—The champion tennis match between Thomas Pettit of Boston and Charles Saunders of England was continued to-day, and Pettit won three of the four sets played.

Saunders won the first set, 6 to 4; Pettit won the second, 6 to 3, and the fourth, 6 to 2.

State Temperance Convention.
By Associated Press.]

BLOOMINGTON (Ill.), May 28.—At the Prohibition State Convention R. R. Link, a farmer, was nominated for State Treasurer, and Dr. Carl Jofann, President of Eureka College, for Superintendent of Public Instruction. The question of nominating a United States Senator was referred to the State Committee.

California Fruit Sales.
By Associated Press.]

CHICAGO, May 28.—Porter Bros. & Co. sold two carloads of California fruits to-day at the following rates: Apricots, $4 per crate, $2 50@3 60 per box; Royal Anne cherries, $3 25 per box; Black Tartarians, 75c@$1 55 per box. One car arrived forty-eight hours late.

BERLIN, May 28.—The Emin Relief Committee received a letter from Dr. Peters, dated Bubahya, Uganda, saying he was about to return to Bagamoyo.

An Exciting Contest.
By Associated Press.]

MONTGOMERY (Ala.) May 28.—The Democratic State Convention was called to order this afternoon. W. W. Davidson, ex-United States District Attorney, was temporary Chairman of the Convention. The Convention was divided into Kolb and anti-Kolb factions, the former depending entirely upon the Farmers' Alliance for their support. Such an excitement was never before known in Alabama. It looks like a four days' session.

Overland Rates Advanced.
By Associated Press.]

A Wonderful Success.

Miss Lillian Booton made her debut on the professional stage with Mlle. Rhea's excellent company at the Baldwin Theater, San Francisco, on the evening of May 23d, as Marie Louise in "Josephine," and the press of San Francisco speaks of the young lady's debut as a successful one. Considering the fact that Miss Booton had only two days in which to learn her part and prepare the costuming of the same, with no rehearsal with the company, a brilliant future on the stage is assured the daughter of Brigadier-General C. W. Booton. The young lady's talent and beauty has made such an impression with Mlle. Rhea that she has intrusted the leading part in her new play, which will be produced week after next, to Miss Booton. An effort will no doubt be made to have this company visit Reno in the near future.

Coming for a Wife.

Hiram Oelrich and party will pass through Reno some time this afternoon or evening in a special car. Mr. Oelrich comes to this coast to wed Miss Theresa Fair, the daughter of James G. Fair, and the ceremony will shortly take place in San Francisco.

5 O'CLOCK EDITION.

IT appears that the Louisiana Lottery is busying itself in the canvass for members of the North Dakota Legislature, hoping to obtain a charter at the next session. Of course, the terms offered by the concern are a great temptation to a young State, with a debt and a deficit, and many well-meaning legislators are disposed to seize a present pecuniary gain for the public treasury, independent of any personal inducements that may be held out to them. If they would put the amounts which, in the event of the establishment of the lottery, will be filched from the pockets of the people, and the demora'ization which will surely result, against any donation from the funds of the company, they would have little difficulty in striking a correct balance.

BASEBALL appears to be losing its popularity in the East. The attendance at matches this year is small and interest has subsided. This is natural enough. The game has become a business and has gone the way of all professional sports. Sooner or later bargaining and all the well-known sporting methods make their way into all amusements which become betting propositions. Then the public begins to realize that it is being sold out, and takes no further stock in the alleged contests. Baseball is a good athletic game, and ought to maintain itself as a popular recreation, but as a gamble it is to be hoped that it has seen its best days.

SPAIN proposes to invite the Latan American Republics to join in an exhibition at Madrid in 1892 in honor of Columbus' discovery. This, says the Bulletin, may be designed to take the wind out of our sails. Spain was very much worked up over the Pan-American Congress as an invasion of Spanish commercial territory and would be glad to give our World's Fair a black eye. The Latin Republics will find it to their interest to send their exhibits to Chicago rather than to Madrid. A growing nation of 65,000,000 promises to be a better customer than a worn-out and stagnated European State of 17,000,000.

EVIDENCE has been given to the Joint Congressional Committee that during the recent strike in Chicago the bosses imported French-Canadian carpenters under contract. The chief feature of the contract labor law as interpreted seems to be its proclivity for catching the wrong man. It stops clergymen, university professors and other specialists, but lets in all kinds of persons who compete with American labor.

SOME persons in Wisconsin have been trying to blow up a Chinese laundry with dynamite. Eastern papers and people that have indulged in reflections upon the "barbarity" of Californian treatment of Chinese will please notice that wherever the Mongols go they arouse a similar prejudice. But the dynamite protest is ahead of California.

PRESIDENT DIAZ considers the Lower California filibustering sensation of very little importance. His head is level, as usual. He accepts certain American newspaper methods at their true value.

Scrofula

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases:

"My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him

A Confirmed Cripple.

I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, the swelling went down, the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. MCMURRAY, Notary Public, Ravenswood, W. Va.

Protect the System From Malaria.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fever which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the effect of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the Tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloid, sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional indorsements which it has received have added to the reputation it has obtained at home and abroad.

Strong Language.

J. B. Laughran, ex-mayor of North Des Moins, Iowa, said recently: "I have just recovered from a severe attack of la grippe. I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convinces me that these remedies are the best in the world. That may be strong language, but that is what I think." For sale by Shoemaker & Co.

The Pulpit and the Stage.

Rev. F. M. Shrout, pastor United Brethren Church, Blue Mound, Kansas, says: "I fell it my duty to tell what wonders Dr. King's New Discovery has done for me. My Lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to use them to try it. Free trial bottles at W. Pinnigers's drug store. Regular sizes 50c and $1.

Liver Complaint—Biliousness.

The chief symptoms of this disease are depression of spirits, foul coated tongue, bad tasting mouth, disagreeable breath, dry skin, with blotches and eruptions, sallow complexion and yellow eyes, tired, aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint in all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be warded off by their use. Somebody Tells Somebody.

Dr. B. Hamlin, of Lemore, Cal., says a few dozen bottles of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not well do without it. Those who use it find it so much superior to any other remedy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

COUNTING THE PEOPLE.

Some of the Inquiries to Be Made by the Census Enumerators in June.

The Eleventh Census of the United States will be taken during the month of June. The census enumerators will begin their work on Monday, June 2d, and will visit every house and ask questions concerning every person and every family in the United States. The questions that will be asked call for the name of every person residing in the United States on the first day of June, with their sex and age, and whether white, black, mulatto, quadroon, octoroon, or Chinese, Japanese or Indian. Inquiry will be made also of every person as to whether they are single, married, widowed or divorced, and, if married, whether married during the census year. The place of birth of each person, and the place of birth of the father and mother of each person, will also be asked for, as well as a statement as to the profession, trade, or occupation followed and the number of months unemployed during the census year. For all persons ten years of age or over a return must be made by the enumerators as to the number able to read and write, and also the number who can speak English. For those who cannot speak English the particular language or dialect spoken by them will be ascertained. For children of school age, also, the number of months they attended school will be recorded by the census enumerators. In the case of mothers an inquiry will be made as to the number of children they have had, and the number of these children living at the present time. This inquiry is to be made of all women who are or have been married, including all who are widows or have been divorced. Foreign-born males of adult age, that is, 21 years of age or over, will be asked as to the number of years they have been in the United States, and whether they are naturalized or have taken out naturalization papers. Of the head of each family visited the question will be asked as to the number of persons in the family, and whether his home is owned or hired; also, if owned, whether the home is free from mortgage incumbrance. If the head of the family is a farmer, similar inquiries will be made concerning the ownership of the farm. In addition to these inquiries, all of which are made on the population schedule, the law under which the census is taken makes provision for special inquiries concerning such of the population as may be mentally or physically defective in any respect—that is, insane, feeble-minded, deaf, blind or crippled—or who may be temporarily disabled by sickness, disease or accident at the time of the enumerator's visit. Certain special inquiries will also be made concerning inmates of prisons, reformatories and of charitable and benevolent institutions. Besides this, a statement will be called for concerning all persons who have died during the census year, giving the name, age, sex, occupation, and cause of death.

This official count of the people comes but once in ten years, and every family and every person should consider it to be their duty to answer the questions of the census enumerators willingly and promptly, so that definite and accurate information may be gained concerning the 65,000,000 people living within the bounds of this great country.

A PLEASANT TRIP.

The Reno High School Pupils Pay a Visit to the Comstock.

The Senior Class of the Reno High School, who, with Professor Ring, visited the Comstock yesterday, returned delighted with all they saw, and are especially pleased with their treatment by all with whom they were brought is contact. They visited the Virginia schools, where, in the Fourth Ward building, they saw the "fire drill," by which, in one and a half minutes, without the least confusion, the room was cleared of 700 pupils. They also visited some of the hoisting works and the Chollar electric mill, Professor Ring and some of the boys going down to the 1600-level, where the dynamos which supply the power were at work. Some of the party went as deep as the Sutro tunnel level.

The party, which made the trip in one of Hymers' stylish four-in-hand rigs, returned to Reno last evening about 10 o'clock, pretty tired, but well pleased with their trip.

A New Comer.

Attention is called to the professional card of Judge Benj. Charles under "New To-Day." The Judge has lived on this side of the mountains since 1859. He went to Carson in 1863 and began the practice of law, and he has been a member of the bar since that time and is a part of the root and branch of Nevada law. He is careful and painstaking and enjoys an enviable reputation in the profession. Any business intrusted to him will be faithfully attended to. Reno welcomes him and extends the right hand of goodfellowship.

Refused to Commute.

A Carson dispatch of last evening says that the fate of Potts and wife, who killed one Fawcett at Carlin on January 1, 1888, has been decided at last. The Board of Pardons met and decided that the sentence could not be recalled, and the pair must hang on June 20, 1890. The body of Fawcett was literally cut to pieces and otherwise horribly mutilated. The whole thing was done at the suggestion of Mrs. Potts, with Potts as a tool.

A Needed Correction.

Applicants for examination for the West Point Cadetship must be physically sound and between the ages of 17 and 22, instead of 14 and 18 years of age, as heretofore stated. State papers will confer a favor on the Board of Examiners by copying this.

Attention, G. A. R.!

The members of General O. M. Mitchell Post, No. 69, G. A. R., will meet at the Masonic Hall on Friday, May 30th, at 10 A. M., for the purpose of taking part in Memorial Day exercises. A full attendance is desired.

MONO NEWS ITEMS.

Placer Diggings—Sheep Coming—Sierra Glaciers, Etc.

The Homer *Index* of the 24th inst. says:

Placer ground is being actively sought in Old Mono Diggings. It is believed by many that the richest spots in that vicinity have never been worked.

The advance agent of a band of sheep visited Tioga a few days ago, and concluded to wait a while before he drove his flock across the mountains, as it would not pay him to mount his animals on snow-shoes.

There is more snow in Tioga now than was ever before seen in that district, except on the southwestern slope of Mt. Gibbs, where the sun has full swing nearly all day. The peak of Dana is a glittering mass of snow and ice, and the glacier is so covered that its outlines cannot be defined.

Water is coming down the canyon in torrents, and the lake is already at high-water mark. The creek is a thundering stream, flowing at least 5,000 miner's inches, and the prospect is that Mono Lake valley will be flooded during the next month, as the snow in the mountains has hardly begun to melt. When the lakes in the upper canyon break up there will be some pretty wild ground-sluicing.

Mrs. Sharon's Stockings.

The Homer *Index* says: Nevada papers are having a good deal to say about Mrs. Fred. Sharon's stockings. It's nobody's business how high they come. If she likes to garnish her extremities with thousand-dollar hose, she is in big luck to be able to gratify the whim. A pair of clean socks, at any price, would vastly improve most of those envious editors.

HIGH WATER.

Bridges Washed Away and Grain Fields Flooded

A Fresno, Cal., special to the San Francisco *Chronicle* says: San Joaquin and Kings rivers are higher than ever before. Abont Elkhorn many thousand acres are inundated. A large area near Reedly is also flooded. Several hundred acres of the finest wheat land of Laguna de Tache grant are under water, and what promised to be a splendid yield to the acre will not pay for harvesting. Below Hamptonville the San Joaquin has broken its banks and hundreds of acres are covered with water. Bridges on both rivers have been washed away. Both streams are rising rapidly, and a few warm days will cause disastrous floods. At Firebaugh the banks are in danger, and should they break, the entire country will be flooded. The snow in the mountains has only commenced to melt.

CLEAR YOUR FACE.

It is now known that a pimply skin is not the result of blood disease, but is caused by impaired digestion, for which they now give vegetable correctives instead of minerals. Two short testimonials are given to contrast the action of the potash sarsaparillas and Joy's Vegetable Sarsaparilla. Mrs. C. D. Stuart of 1221 Mission street, S. F., writes that she took one of the leading sarsaparillas for indigestion and dyspepsia. Its only effect was to cause pimples to appear on her face. Upon taking Joy's Vegetable Sarsaparilla the first effect was the disappearance of the pimples and she was subsequently relieved of the indigestion and dyspepsia.

Robert Stewart also writes from Petaluma, Cal., that being troubled with boils he found that one of the leading sarsaparillas actually increased the eruptions, which responded at once to Joy's Vegetable Sarsaparilla and disappeared immediately

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of the Kidneys or Liver or Stomach, of long or short standing you will surely find relief by the use of Electric Bitters. Sold at 50c and $1 per bottle at W. Pinniger's drug store.

Lander, and Bull and Grant Farm Implement Company, a corporation, greeting: You are hereby required to appear in an action commenced against you as defendant by Mary E. Grippen as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a decree against you and each of you foreclosing a mortgage made by defendants, G. R. Stockwell and Mary Stockwell, and to foreclose and bar your equity of redemption to and in the following described real property, to wit: Lots four and five (4 and 5) in block "I," in Haydon & Shoemaker's southeast addition to the town of Reno, as known and described on the "official map" of said addition to said town, together fronting one hundred feet on the north line of Mill street, and having a depth of one hundred and forty feet northerly to an alley; situated and being in the County of Washoe and State of Nevada; and for an order and decree directing a sale of said property for the purpose of paying the interest due and unpaid on a certain promissory note in the sum of $562 70-100, made by G. R. Stockwell and his wife, Mary Stockwell, and that she be authorized to retain from the proceeds arising from a sale of said property, the principal sum of said note amounting to $612 50-100; and that she also retain moneys advanced in the payment of taxes, and in the payment of cost and charges because of delinquency in the payment of taxes for the year 1889, in the sum of $30 42-100, and money advanced for the payment of an insurance premium in the sum of $12 60-100; and that said payments and advances be declared liens on said premises. That she be authorized to retain from said money attorney's fees in the matter of foreclosure, and such other costs and charges as may accrue in said foreclosure proceeding and sale, also for a writ of assistance for the possession of said premises by whomsoever may be thereto entitled; and for such other and further relief as the complaint will permit, and for a judgment for any remainder, should there be such, against G. R. Stockwell, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred.

And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded and for costs of suit.

In testimony whereof, I, William Webster, have hereunto set my hand this 23d day of April, A. D. 1890.

HOME HINTS AND HELPS.

—To make crust coffee, brown crusts of brown bread until crisp, add three or four to one quart boiling water, and boil five minutes. Serve as other coffee.—The Home.

—Vegetable Hash.—A palatable hash is made by chopping equal or unequal proportions of cold turnips and cold boiled potatoes. Season with salt, pepper and butter, and heat thoroughly.—Country Gentleman.

—Merino underwear should be watched carefully, for when the stitches commence to break, unless mended at once, large holes will appear before long, and then it will soon go. Pieces of old underwear should be used for mending, and by placing it under the thin place or hole it can be darned down nicely.—Boston Commonwealth.

—Fricassee of Spring Chicken.—Take off the wings and legs of the chickens, cut up the remains with liver and gizzard, put in a saucepan, add salt, pepper, mace and parsley, cover with water and stew until tender; take up. Thicken the gravy with two tablespoonfuls of flour rubbed in two ounces of butter and a teacup of cream; boil altogether, put the chicken back, let boil, squeeze in the juice of a lemon and serve.—Chicago Times.

—Easter Pudding—Two eggs, the weight of the eggs in flour, the weight of the eggs in butter and their weight in brown sugar; one tablespoonful of chopped candied lemon peel, one tablespoonful of vanilla; beat the butter to a cream; add the sugar and eggs; sift in the flour with one teaspoonful of baking powder, the extract and lemon peel last; beat until very light; butter a mold—the mixture should half fill it—cover closely, and boil in a small quantity of water one hour and a half; serve with cream, or a custard sauce flavored with lemon.—Boston Herald.

—Many vegetables boil very nearly tasteless in soft water. The addition of salt often causes the vegetables to retain their peculiar flavoring principles, besides much nutritive matter which might be lost in soft water. Thus it appears that salt hardens the water to a degree. For extracting the juice of meat to make a broth or soup, soft water, unsalted and cold at first, is best, since it much more readily penetrates the tissues; but for boiling meat when the juice should be retained, use hard water or soft water salted, put it over the meat boiling hot so as to seal up the pores at once.—The Housekeeper.

—The application of chloral hydrate in solution of five grains to the ounce of water, is said to clear the head of dandruff and prevent falling of the hair from the latter cause.

DISEASE IN SLEEPING CARS.

Why Plush And Velvet Must Give Place to Smooth Leather.

Dr. I. W. Whittaker writes the *American Lancet* as follows; The plush, velvet, and silk hangings must go. Seats must be covered with smooth leather that can be washed off, carpets give place to rugs, to be shaken in the open air at the end of every trip—better still, abolished for hard wood floors; the curtain abomination must make way for scenes of wood or leather, the blankets of invalids' beds be subjected to steam at a high temperature, mattresses covered with oiled silk, or rubber cloth that may be washed off, and, above all things, invalids provided with seperate compartments shut off from the rest of the car, with the same care which is taken to exclude the far less offensive or dangerous smoke of tobacco, cuspidors half filled with water, and consumptive travelers provided with sputum cups which may be emptied from the car. It is not necessary to say here that the sole and only danger lies in the sputum. The destruction of the sputum abolishes the disease. When the patient learns that he protects himself in this way as much as others—protects himself from the auto-infection, from the infection of the sound part of his own lungs—he will not protest against such measures.

KANGAROOS AND BUFFALOS.

The Former Diminishing And The Latter Increasing.

Australia is likely before many years to have no kangaroos except in its museums. From the reports of the various stock inspectors, it was estimated that in 1887 there were 1,881,000 but in 1888 this number fell to 1,107,000. The chief objection to the adoption of measures for the effectual protection of the marsupial is his vigorous appetite. One kangaroo is said to consume as much grass as six sheep, a fact to which sheep farmers are painfully alive. It is curious to learn, however, that if the kangaroo is likely to be exterminated, a new introduction the wild buffalo, has found a home in the plains of Northern Australia, where it is now to be met with in vast herds. These animals, are said to be of the first buffaloes which were landed at Port Essington, in North Australia, about the year 1829.

How to Keep Out Flies and Mosquitoes.

Herbert A. Finley of St. Louis writes as follows:

I haven't a mosquito bar about my house, and yet there are seldom any flies and never any mosquitos about it. I learned the secret of successful warfare against these pests when living in the swamps of Louisiana, where, summer and winter, mosquitoes swarm. For some years life was unendurable, and no meal could be eaten in peace. But all at once there was a change for the better. Bars and screens were often out of place, but there was almost an immunity from insects. I was batching at the time and had just changed my colored boy. The new comer explained to me how he kept the "critters" away. He burnt small pieces of gum camphor on the cook stove and used a secret preparation he called "sude-killo." When I got married and came to Missouri I imparted the secret to my wife, and as there is no patent on it that I know of, I would advise all fellow sufferers to go and do likewise. The gum camphor alone is ample for the purpose, and need only be used two or three times a day.

Fall Calves the Most Profitable.

The Northwestern *Live Stock Journal* says: A calf born in the fall or winter is worth two born in the spring for profit. A spring calf is so young that it gets little good from pasture the first season, for by the time it can fight flies successfully and crop grass enough to really aid in nourishing it winter is at hand and it is placed on dry food.

A sea-serpent, 103 feet long, was seen to coil itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr. Pierce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the lungs, which is really scrofulous disease. If this wonderful medicine does not do all we recommend, when taken as directed, we will cheerfully and promptly return all money paid for it. Can any offer be more generous or fair? No other medicine possesses sufficient power over that fatal malady—Consumption, to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alterative, or blood-cleanser, known to medical science, but also possesses superior nutritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For all cases of Bronchial, Throat and Lung Diseases, accompanied with lingering coughs, it is absolutely unequaled.

$500 REWARD is offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Catarrh in the Head which they cannot cure. By its mild, soothing, and healing properties, Dr. Sage's Remedy cures the worst cases, no matter how bad, or of how long standing. Fifty cents, by druggists.

The following Resolutions were unanimously adopted:

Resolved, That this committee reaffirms the State and National Republican platform for 1888, including the declaration that "the Republican party is in favor of the use of both gold and silver as money" and that it, "condemns all efforts to demonetize silver."

Resolved, That the persistent neglect of Secretary Windom to increase the coinage of silver to the maximum of four million dollars per month, coupled with his attempt to influence Congressional legislation so as to perpetuate silver demonetization, is a shameless violation of the silver plank of the National Republican platform, an attack on the rights and interests of the miners, farmers and workers of the land, and an act of party perfidity that should call for his retirement from the councils of an administration which is pledged to help and not hinder the demonetization of silver.

Resolved, That the Republican party is in favor of free and unlimited coinage of both gold and silver; that it holds to this principle as a tenet of party faith and a test of party allegiance; that it will permit of no abandonment or modification of this doctrine; that let whosoever will prove recreant to the principal of bimetallism it will remain steadfast thereto, and that it invites all voters in Nevada who favor the repeal of the iniquitous interlineated law of 1873 by which silver was demonetized, and who desire the establishment of free and unlimited coinage as the law of the United States of America, to join in electing delegates to a Republican State Convention.
